

QUALITY POLICY STATEMENT

MetPac-SA, a metal packaging Producer Responsibility Organisation, is committed to driving the circular economy for metal packaging in South Africa, in support of sustainable development goals. The Quality Management System of MetPac-SA covers the design, implementation, and management of extended producer responsibility strategies for the circularity of post-consumer metal packaging in South Africa, excluding 210-litre drums and pesticide aerosols.

MetPac-SA works in close association with all metal packaging interested parties, addressing relevant internal and external Extended Producer Responsibility (EPR) issues, to provide a level of service and delivery excellence that will always meet or exceed member expectations. MetPac-SA develops its EPR strategy in line with Section 18 of the National Environmental Management: Waste Act, as mandated by the Department of Forestry, Fisheries and Environment.

MetPac-SA is committed to a world-class Quality Management System aligned with ISO 9001:2015, ensuring clear, measurable business objectives that support its EPR strategy.

MetPac-SA is committed to providing the necessary resources and promoting an environment where employees can actively contribute to continual improvement, innovation, and sustainable growth. Business objectives are regularly reviewed and aligned with strategic goals to drive performance.

In achieving these objectives, MetPac-SA ensures compliance with all applicable statutory and regulatory requirements, upholds the highest standards of business ethics, and promotes environmental sustainability, while proactively managing business risks and opportunities.

Dr Kishan Singh

CEO - MetPac-SA
